ADAPTATION DES PROFESSIONS DE PREVENTION DES RISQUES NATURELS ET AUX CONSEQUENCES DU CHANGEMENT CLIMATIQUE

NEWSLETTER N°3

## OUR PROJECT IS ENTERING THE OPERATIONAL PRODUCTION AND TESTING PHASE

This summer newsletter aims to discuss the following aspects:
1.   Update on the project's productions, in the current stages,
2.   Exchanges between partners.

I- THE PROJECT'S PRODUCTS

The project's 5 productions   have progressed at a good pace, despite the pandemic and measures that have restricted meetings between partners.

The **Actors' Guide** (IO.1, piloted by ITG Conseil) has already been finalized and translated into the languages of the partnership.
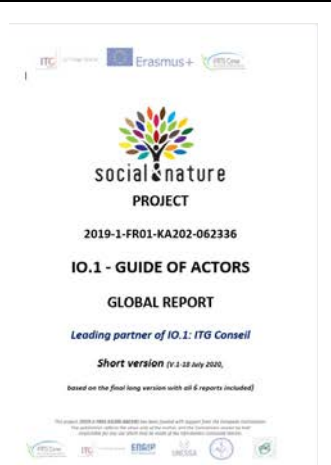

The **Platform** (IO2, piloted by ENAIP) is structured and ready to host content; it is as follows:

The M odules of training on the impacts of climate change (IO3, led by MCE and IFRTS) are being produced. Newsletter 4 will provide more information on the content of these modules.

The **E-E-Et. Of Good Practices from Social Cohesion** (IO4 led by UNESSA) contains nearly 30 good practices, local and collective actions to combat climate change, across all partner countries.

Work on the **Pedagogical Tool box** (IO5, piloted by ITG Conseil) will be carried out from March 2021.

Pour davantage d'information sur les productions du Projet, rendez-vous sur le site internet : https://www.socialandnature.eu/ disponible en 4 langues et sur sa page Facebook!
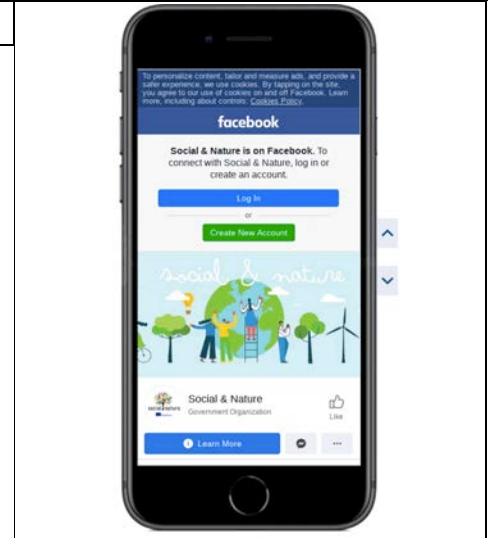

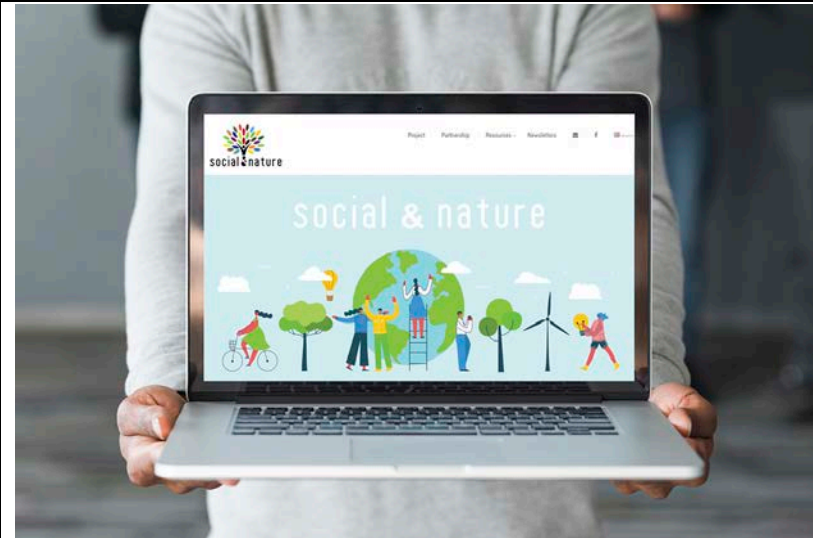

II- OUR VIRTUAL AND ONLINE MEETINGS:

27/11/2020 (skype meeting)	Expected soon as well, workshops to go on with project development (workshops 3, 4 et 5) and numerous bilateral meetings so that partners develop their contents as planned.
25/01/2021 (skype meeting
